UNIVERSITY OF BERGEN

UiB AI seed funding 2025-2026

Application form

Should be submitted by October 20th 2025, 23.59 to uibai@uib.no

UiB AI welcomes applications for seed money to foster 4-5 new collaborations around AI research, education and/or innovation. The idea behind these seed money is to facilitate **new** interdisciplinary collaborations across UiB and/or with external partners.

Applications should describe collaborative activities towards development or use of AI in innovative ways regarding research, education or innovation, or towards increased understanding of societal impacts of AI. Please also discuss possible ethical concerns. The seed money is meant to drive interdisciplinary research forward.

A new collaboration should include at least two partners that have not cooperated before. Interdisciplinary or cross-sectorial collaboration is required, either between researchers at different faculties or departments at UiB, or between one or more UiB researcher(s) and one or more external partner(s); e.g. from another university or from a non-academic company/organisation.

partier(s), e.g. from another differently of from a flori-acadeffile company, organisation.
